Neyyattinkara-Vilavancode Community Project.

203 [21] SHRI M. WILLIAM: Will the Chief Minister be pleased to state:

(*a*) the number of works and the nature of works and the respective costs of works done by the Neyyattinkara-Vilavancode Community Project in the years 1952 to 1953 and 1953 to 1954 and 1954 to 1955; and

(*b*) what is the reason for the vast difference in works carried on in Vilavancode as against the works in Neyyattinkara Taluk?

Answer.

*(*a*) The statements showing details regarding the number of works, the nature of works and the respective costs of works done in the Neyyattinkara-Vilavancode Community Project in 52-53; 53-54 and 54-55 are placed on the table. Works are usually taken up only after the estimates are approved by the Project Advisory Committee considering the extent of voluntary contribution by way of land labour, and co-operation of the public.

The difference between the expenditure incurred for works in the taluks of Neyyattinkara and Vilavancode is also due to the vast difference in area between them. Vilavancode Taluk is 166·06 Sq. miles in area and Neyyattinkara Taluk 232·96 Sq. miles.

മേലുകര-റാന്നി റോഡിന്റെ പണി.
